## About Wynn Free

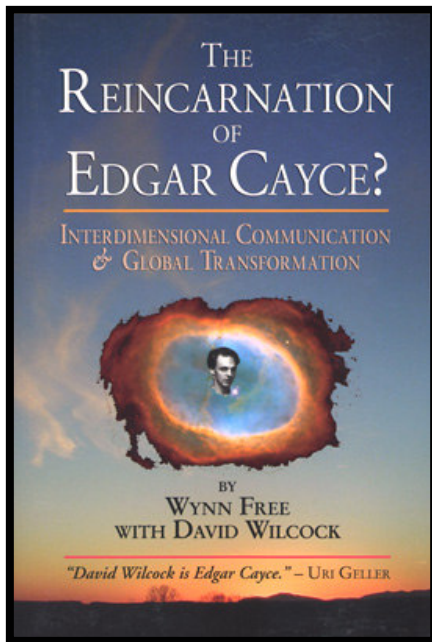

### In his own words.....

Seven years ago I identified with being a singer/songwriter, a poet, and a metaphysical journalist. Then I discovered the website of David Wilcock and I was compelled to write a book about David, entitled *The Reincarnation of Edgar Cayce?* The book makes a very solid case, with millions to one odds that David Wilcock is Cayce returned. **But far more important, it brings through the current messages of David's source, who I believe is the major group oversoul for our planet and has been recognized in many instances of the history of mankind as God.** ([www.caycesback.com](http://www.caycesback.com)) My focus in writing the book was to bring forward the messages of Wilcock's source explaining from a celestial perspective what's happening in the current period of humanity's evolution.

Then two years into writing the book, I was contacted in a very personal way by the other major group soul, who identified themselves as the Council of Elohim. This contact validated itself to me with very precise future prognostications and a miracle of healing. I was given the opportunity to ask any question and received extremely intelligent, wise and loving answers. (see [www.conversationswithmygirlfriend.com](http://www.conversationswithmygirlfriend.com)) Many of the questions were related to the premises of the book I was writing and I received a precise confirmation from the Elohim regarding many of the projections presented in the book. This contact is still ongoing.

I have learned with absolute certainty that there are a myriad of beings in other dimensions who are watching over mankind with important messages and helpful guidance regarding the future of our evolution. It has become one of my roles to act as a celestial emissary on behalf of these entities and share my own personal experiences and the communications of these inter-dimensional sources. .

## About the book: *The Reincarnation of Edgar Cayce?*

Wynn Free is the principal author of the critically acclaimed book - *The Reincarnation of Edgar Cayce?* The book is divided into three parts. Part One presents and, for most readers, proves the case linking David Wilcock to Edgar Cayce. Part Two presents the messages of Wilcock's Source with verbatim transcripts of some of the readings. The readings give a new and unexpected understanding of what's happening on our planet from a celestial perspective, accompanied by wisdom and compassion for the human condition. Part Three is written by Wilcock himself, giving a scientific basis for understanding what a "dimensional shift" is.

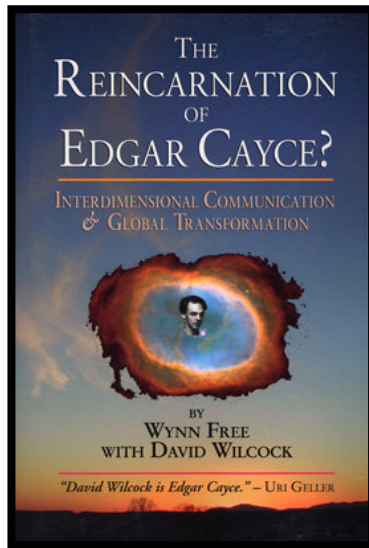

According to the premises in the book, our planet is at the end of a 75,000 year cycle and there is nothing in mankind's history to explain the significance of this period. Many readers are experiencing an expanded awareness and deeper understanding for the real meaning of life and how other dimensions interact with ours. There is information presented concerning the spiritual truths of the planet for the first time in print for a public audience.

The book has been favorably reviewed by a number of publications including New Age Retailer, Mystic Pop, The Messenger, and Magical Blend. It has been endorsed by a handful of more liberal Christian ministers. A couple of churches have conducted study groups on the book. The authors are constantly receiving communications from readers concerning how the book has changed their lives.

"It answers many philosophical and spiritual questions which I have pondered for many decades" – Barbara Lamb, family counselor, regressionist, and author spiritual

## Book Endorsements

**“David Wilcock is Edgar Cayce” – Uri Geller**

**“This is a masterpiece. I can’t put it down.” -  
Dr. Phillip Rothenberg**

**“I am just stunned by your book” – Sandra Ray**

**“This book resonates its wisdom it may change your life forever” – Konrad Kasrerer, Spiritual Leader, Unity of Flagstaff**

**“The book may be the most important work in contemporary spirituality explaining how to maintain one's connections to divinity on a planet in transition.” – Reverend Beverly Craig, Sr. Minister, Church of Religious Science, La Cresenta, Ca.**

“It made me aware of what was important in life. I think we live and work towards goals that do not address our spirituality. I see myself in a completely different way than I have in the past. I now know that I have a purpose which was unclear to me before.”

“I do recognize truth when I see it and I am somewhat intuitive. I tell you this for whatever it's worth, because it does feel to me like this young man is the soul who was Edgar Cayce.”

“Completely changed my life. Now I understand what I've always felt and understood but couldn't articulate. I understand my purpose here now. Everything finally makes sense.”

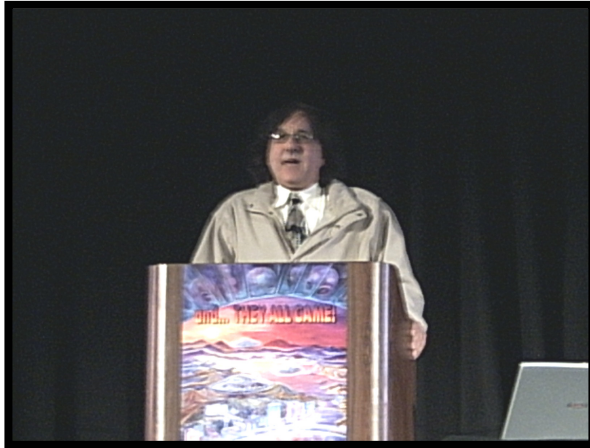

“I found the book you refer to excellent. I am one of those lucky people who was introduced to the metaphysical world when someone gave me "There is a River " which was about Edgar and his life. As far as I can tell David is certainly being guided by Cayce even if you don't want to accept that he is truly the reincarnation of him. The book for me stands on its' own as far as the information is concerned.”

“Yes. It connected me to the reality that I am not alone with the answers I have found and the things I have come to believe in my heart as true and that my enlightenment must have been channeled as well...not surprising really, truth is truth.”

“It has expanded my knowledge and comprehension of the makeup of Creation.”

“I LOVE this book. .... The book is written clearly and follows along the path of the Cayce readings that I have been studying since the 60's and 70's when I first read "The Sleeping Prophet". I would give it a 10!”

## About Wynn's Public Presentations

Wynn addressing 700 people at a convention in Laughlin, Nevada

Wynn is an engaging public speaker, inspirer and motivator. His presentations include stories about the book *The Reincarnation of Edgar Cayce?* and his personal experiences of personal growth and inter-dimensional communication. He is able to translate deep esoteric subjects into everyday language. His background as a singer/songwriter gives him an engaging, easy going manner with the public and occasionally he'll perform some of his original songs.

But most important is the story of the higher dimensional beings, why they want to communicate with mankind, and what they have to say. It sounds like science fiction, but the story behind these inter-dimensional contacts is based on events which really occurred, can be easily validated, with real miracles. A Hollywood movie producer listened to one of Wynn's lectures and decided he was no longer an atheist. He's now making a movie about the dimensional shift.

When the venue is appropriate, Wynn presents an hour introductory talk followed by a four hour workshop with in depth explanations for some of mankind's deepest mysteries.

His bookstore appearances often generate interviews and articles in the local newspapers. Edgar Cayce is a name known by millions and when the Prescott local press ran an article about Wynn's appearance, the local Barnes and Noble got the largest crowd ever for an author.

Adrian Windsor is the program director of the Inside Edge, a prestigious breakfast club in Orange County presenting various spiritual luminaries as speakers. Past speakers have included Wayne Dyer, Mary Anne Williamson, Jack Canfield and many others.

**“You did an amazing job of bringing forth your experience as it has emerged since the beginning of the writing of your book. It is so apparent that **you are now a direct emissary and your life is not about you at all, but about the work you are doing** and are expected to do.” - Adrian Windsor, Ph.D. Program Director, Inside Edge**

The Bodhi Tree is Los Angeles’s oldest metaphysical bookstore. The Reincarnation of Edgar Cayce has become one of their perennial best sellers. This testimonial was given to Wynn by the gentleman who was assigned to assist Wynn during his book signing and presentation.

**“Wynn Free’s recent presentation at the Bodhi Tree Bookstore was simply put, quite a spectacle. To all in attendance and with genuine conviction, **the author imparted esoteric knowledge to help prepare for the transformational earth changes that will soon affect everyone on the planet**” – Bodhi Tree**

Hilly Rose is one of the oldest and most respected metaphysical/phenomena talk show hosts in the country. He has his own show on Fate Radio and substitutes for Art Bell on Coast to Coast AM, the most popular night time radio show with 20 million listeners. Wynn was a guest on his show.

**“I started to read this book and the more I read it, the more I realized why Wynn Free had written the book about David Wilcock and why it was important to read the book itself. Wynn talks about the man. He talks about his past, a lot of things about where he's going in a way Wilcock himself could not tell you, because to some degree, people who are gifted in this sense don't really understand everything that's going on around them. They can channel ok. They can talk about it. But they may not understand the significance of who they are, what they're doing, and why.”**

## Promo Copy

**The Conscious Living Expo, 2006, in San Francisco promoted Wynn's talk as follows:**

### **2012 - What's really happening?**

Wynn Free will present the convincing case that Edgar Cayce has reincarnated and is bringing forth messages from the same source as Cayce, who now identify themselves and explain in precise detail the dimensional shift occurring on Earth. Wynn will share how they contacted him directly and validated the premises of his critically acclaimed book, *The Reincarnation of Edgar Cayce?*, which presents the definitive esoteric explanations for the prophecies relating to this period.

### **Speaker Bio:**

Since his book, *The Reincarnation of Edgar Cayce?*, was released, Wynn has become a spokesperson for the reality of interdimensional communication and the dimensional shift with many public appearances, including George Noory, radio, TV and spiritual groups.

**The Inside Edge, a monthly spiritual breakfast meeting in Irvine, described Wynn's appearance as follows:**

### **Wynn Free "THE REINCARNATION OF EDGAR CAYCE?"**

Wynn Free is the author of *The Reincarnation of Edgar Cayce*, where he puts forth the case that the Western world's most credible and accurate psychic/prophet has returned in the form of 31-year old David Wilcock. Our world is in a state of turmoil and transition. Is there a rhyme and reason behind it all? If you are willing to consider the possibility that the soul is eternal, reincarnation is real, and that the evolutionary transformation of our planet is tied to the celestial source who spoke through Cayce, then you will be intrigued by the surprising and unexpected web of synchronicity that Wynn Free weaves

# The Good Army

There's no scarcity of people.  
There's no scarcity of good people,  
But there's a scarcity of  
Good people finding each other,  
Loving each other,  
Trusting each other,  
And committing to  
The highest good of humanity.  
When good people recognize each other,  
It's very special and powerful,  
And when they bond to each other,  
It's undefeatable.  
When enough good people bond,  
The good army will go marching,  
The bad will surrender,  
Peace will reign,  
And hope will return!  
To this mixed up world.  
Consider this as a prayer.

P.S. The good army needs you.
